

# North East Leeds Safer Neighbourhoods Survey Halton Moor Community Intelligence July 2008

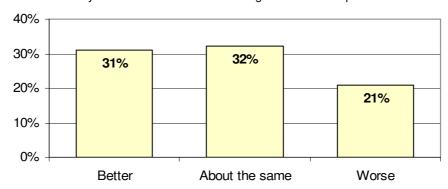

#### **BACKGROUND**

A survey was commissioned during 2008 to establish a baseline of perceived levels of crime amongst residents in an area of Halton Moor within the Crossgates, Whinmoor and Temple Newsam NPT area of North East Leeds. A survey was distributed early 2008 to 800 households within the hotspot (see figure 1). A total of 451 surveys were returned, resulting in a 56% response rate. This briefing sheet details the community intelligence obtained from the survey. The results are statistically significant to +/- 4%.

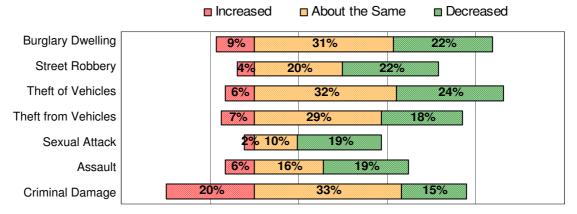

#### **FEAR OF CRIME**

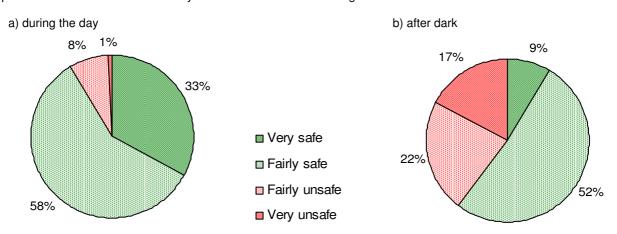

1. Respondents were asked how they feel levels of crime in their neighbourhood compare to others in the county:

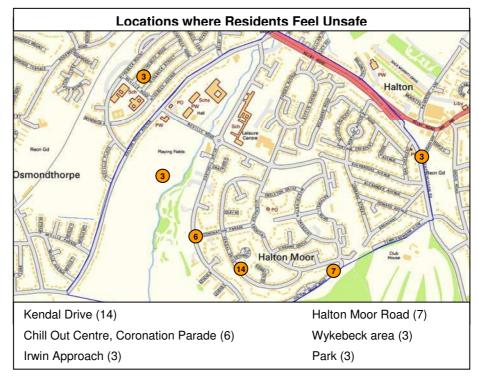

2. Respondents were asked to comment on how they feel crime levels had changed over the previous 3 months:

3. Respondents were asked how safe they feel when outside in their neighbourhood:

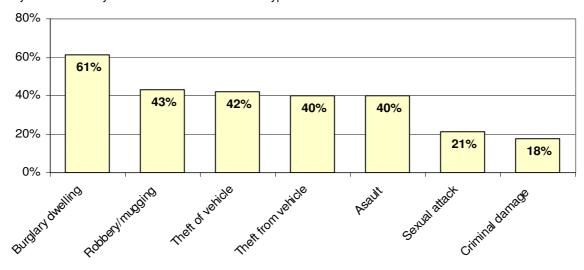

4. Respondents were asked to provide details of areas in their neighbourhood where they feel unsafe. 22% of respondents named a location within Halton Moor where they feel unsafe.

Please note: the numbers in brackets and on the map indicate the number of respondents who identified each location as a problem area.

5. Respondents were asked how worried they felt about different crime types. The chart below shows the proportion of people either fairly worried or very worried about different crime types:

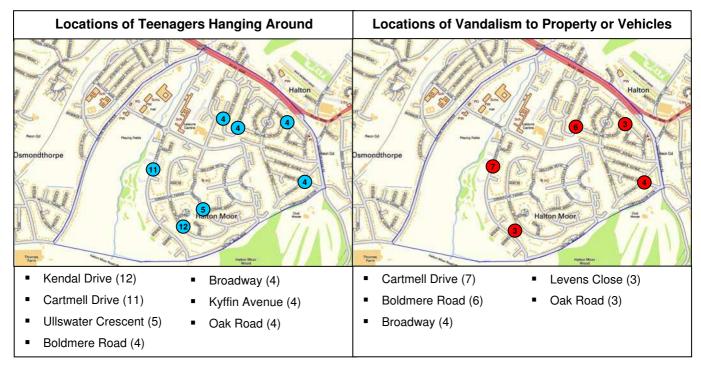

## **LOCAL SIGNAL CRIMES AND DISORDERS**

Some crimes and disorders act as warning signals to people about their exposure to risk, and so impact on the public's sense of security. Some signals may require partner involvement to address. By tackling these types of crimes and disorders, we are targeting those problems that matter most to the public.

6. Respondents were asked to identify the signal crimes and disorders that affect their neighbourhood. Here are the top six signals identified and the proportion of respondents who recognised them as a problem:

1.	Teenagers hanging around on the streets	39%
2.	Vandalism to property or vehicles	32%
3.	Fly tipping, dumping rubbish	26%
4.	Vandalism to bus shelters, telephone kiosks	24%
5.	Dog fouling, stray dogs	23%

### **LOCAL POLICING PRIORITIES**

- 7. Respondents were asked to list the three most important issues the police should address in order to improve their neighbourhood. Whilst there were a variety of responses at different levels of seriousness, there were clear priorities that respondents agreed upon:
  - 1. Groups of teenagers hanging around the streets
  - 2. More police patrol
  - 3. Vandalism
  - 4. CCTV
  - 5. Burglary

## **PUBLIC CONFIDENCE AND SATISFACTION**

8. Respondents were asked if they were familiar with the NPTs, PCSOs and Local Authority neighbourhood Wardens working in their neighbourhood:

9. To assess how satisfied the public are with the service they receive from the Police, respondents were asked to what extent they agree with the following statements:

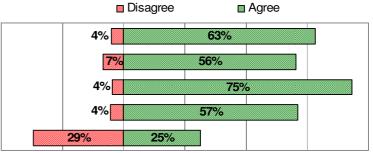

The police understand the issues that affect my neighbourhood

The police are dealing with the issues that matter to this neighbourhood

The police are polite and courteous when dealing with the public

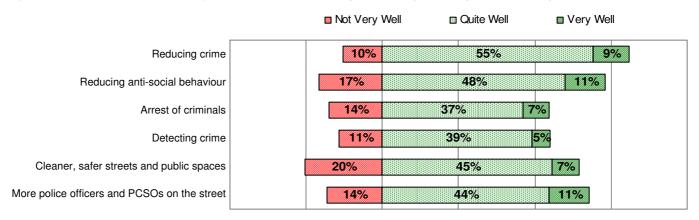

The quality of service offered by the police is of a high standard

I am well informed of crime issues affecting my neighbourhood

#### **PUBLIC REASSURANCE**

10. Respondents were asked how well they felt the Police and other agencies are performing in the following areas:

11. Respondents were asked how reassured specific police activities made them feel:
